7. LAND AT LYONS FARM, BROADBRIDGE HEATH

YOUR FEEDBACK

The proposed residential development will deliver a range of benefits, including much-needed new homes to meet local demand. A diverse mix of housing is proposed, catering for first-time buyers, families and key workers, with 35% of the proposed homes being affordable.

The scheme will also support local sustainability goals, featuring energy-efficient homes,enhanced biodiversity, and measures to encourage active leisure. Through high-quality design, the development will create a vibrant, resilient and attractive neighbourhood, generating economic opportunities during construction and supporting local businesses through increased demand for goods and services.

Miller Homes and the project team thank you for taking part in this consultation and invite you to share your feedback. Your comments will help shape the evolving proposals.

HAVE YOUR SAY

Visit www.lyonsfarmconsultation.co.uk to submit your feedback. The consultation boards at today's event are available to view on this site.

Complete a paper feedback form today and leave with a team member, alternatively

Post to Bluebridge, Basepoint, Andersons Road, Southampton, SO14 5FE
